10. Tips and Troubleshooting

1. Introduction

SIVM BMMS is a web application for managing residential and commercial properties. It brings property structure, residents, complaints, maintenance, facility bookings, assets, parking, visitors, and security into one place. Each person sees only the menus that match their role.

Role	Main purpose	Landing page after sign-in
Platform Administrator	Manage organizations, packages, platform users, and audit logs	Platform Dashboard
Organization Administrator	Run the whole organization: properties, users, roles, complaints, maintenance, facilities, security	Organization Dashboard
Building Manager	Day-to-day operation of assigned buildings	Organization Dashboard
Technician	Carry out assigned work orders, complaints, and maintenance	Technician Dashboard
Security Guard	Visitor check-in, access log, incidents, patrols	Security Dashboard
Owner / Tenant (Resident)	Raise complaints, book facilities, register visitors, view parking and announcements	Resident Dashboard

2. Login Accounts

Use the accounts below to sign in. The password for every account is **Password123**. Please change it after your first sign-in (see section 3).

Platform Administrator

Name	User ID (Email)	Password
Platform Admin	admin@platform.com	Password123

Organization Administrators (Tamil Apartments)

Name	User ID (Email)	Password
Arjun Kumar	admin1@tamilapartments.com	Password123
Priya Sharma	admin2@tamilapartments.com	Password123

Building Manager

Name	User ID (Email)	Password
Suresh Babu	manager@tamilapartments.com	Password123

Technicians

Name	Speciality	User ID (Email)	Password
Murugan Selvam	Electrical	tech.electrician@tamilapartments.com	Password123
Ganesh Raman	Plumbing	tech.plumber@tamilapartments.com	Password123
Imran Khan	HVAC	tech.hvac@tamilapartments.com	Password123

Bala Murali	General Maintenance	tech.general@tamilapartments.com	Password123

Security Guards

Name	Shift	User ID (Email)	Password
Ravi Shankar	Morning (Main Gate)	guard.gate@tamilapartments.com	Password123
Senthil Nathan	Evening (Tower A Lobby Desk)	guard.lobby@tamilapartments.com	Password123
Mohan Das	Night (Basement Patrol)	guard.night@tamilapartments.com	Password123

Residents - Unit Owners

Name	Unit	User ID (Email)	Password
Rajesh Kannan	A-101	rajesh.kannan@example.com	Password123
Meera Narayanan	A-102	meera.n@example.com	Password123
Siddharth Menon	A-201	siddharth.m@example.com	Password123
Ananya Sundaram	A-202	ananya.sundaram@example.com	Password123
Vikram Rathore	A-301	vikram.rathore@example.com	Password123
Karthik Subramanian	A-401 (Penthouse)	karthik.subbu@example.com	Password123
Divya Prakash	B-101	divya.prakash@example.com	Password123
Dr. Arun Chandran	Suite-101	arun.chandran@fintechlabs.io	Password123
Lakshmi Narayanan	Villa-01	lakshmi.narayan@example.com	Password123

Residents - Tenants

Name	Unit	User ID (Email)	Password

Pradeep Kumar	A-302	pradeep.kumar@example.com	Password123
Pooja Hegde	B-102	pooja.hegde@example.com	Password123
Amitabh Sen	B-201	amitabh.sen@example.com	Password123
Sarah Jenkins	Suite-201	sarah.j@cloudsolutions.com	Password123
Varun Dhawan	Villa-02	varun.dhawan@example.com	Password123

3. Signing In and Account Basics

3.1 Sign in

1. Open the SIVM BMMS website in your browser.
2. Select **Sign In** to reach the login page.
3. Type your **Email Address** (User ID) and **Password**.
4. Optionally tick **Remember me**.
5. Select **Sign In**. You are taken to the dashboard for your role.

3.2 Forgot password

1. On the login page select **Forgot password?**
2. Enter your email address and submit.
3. Open the email you receive, follow the link, and choose a new password.

3.3 Change your password

1. Open the account menu at the top right and choose **Account**.
2. Select **Change Password**.
3. Enter the current password and the new password, then save.

3.4 Other account pages

- **Profile** - update your name and contact details.
- **Sessions** - see where you are signed in and sign out other devices.
- **Login History** - review recent sign-ins.
- **Notifications** - choose which notifications you receive.

> If you enter the wrong password several times, the account is temporarily locked and the Account Locked page appears. Wait a while or ask your administrator to unlock it.

3.5 Screen layout

- **Left menu** - the pages available to your role.
- **Top bar** - search, notification bell, and the account menu (profile, change password, sign out).
- **Main area** - the page you opened, with tables, filters, and action buttons.

3.6 Sign out

Open the account menu at the top right and choose **Sign out**.

4. Platform Administrator Guide

Sign in as `admin@platform.com`. The left menu contains: Dashboard, Activity Overview, Organizations, Org Activity, Users, Access Management, Notifications, Activity Logs, Audit Logs, Security, and System Settings.

4.1 Review the platform

1. Open **Dashboard** for totals of organizations, users, and activity.
2. Open **Activity Overview** and **Org Activity** to see usage by organization.

4.2 Create an organization

1. Open **Organizations** and select **Create**.
2. Enter the organization name, type, industry, size, and subscription package.
3. Save the organization.
4. Select **Create Admin** (or open the organization and add an administrator) and enter the administrator's name, email, and a temporary password.
5. Share the sign-in details with the new organization administrator.

4.3 Manage packages and modules

1. Open the **Packages** page and select **Create**.
2. Name the package and choose the modules it includes (for example Facility Management, Parking, Visitors, Complaints).
3. Assign a package to an organization from the organization's detail page. Only enabled modules appear in that organization's menu.

4.4 Users, roles, and logs

- **Users** - view, activate, or deactivate platform users.
- **Access Management** - create roles and choose their permissions.
- **Audit Logs** and **Activity Logs** - see who did what and when.
- **Security** and **System Settings** - platform-wide security and configuration options.

5. Organization Administrator and Building Manager Guide

Sign in as `admin1@tamilapartments.com` (administrator) or `manager@tamilapartments.com` (building manager). Building managers see the same menus except organization-wide settings such as roles and organization settings, which are reserved for administrators.

5.1 Dashboard

The Organization Dashboard summarizes properties, residents, open complaints, work orders, bookings, and alerts. Use it as the starting point each day.

5.2 Set up the property structure

The structure is Building > Tower > Floor > Unit. Create items in that order.

1. Open **Buildings** and select **Create**. Enter the name, address, city, state, postal code, country, and size. Save.
2. Open **Towers**, select **Create**, choose the building, and name the tower.
3. Open **Floors**, select **Create**, choose the tower, and enter the floor name and level.
4. Open **Units**, select **Create**, choose the floor, and enter the unit number, category (residential or commercial), type (for example 2BHK or Office), and size.
5. Open any building, tower, floor, or unit from its list to view or edit its details.

5.3 Manage residents

1. Open **Residents & Occupants**.
2. Select **Add** and choose Owner or Tenant.
3. Choose the unit, enter name, email, phone, and move-in date (or lease start and end for tenants).
4. Save. A sign-in account can be created so the resident can use the Resident portal.
5. To record a change of occupant, edit the unit or resident entry and update the details.

5.4 Manage users, roles, and access

1. Open **Users** to see all organization users. Select **Add User**, enter details, and choose a role.
2. Open a user's **Access** page to limit which buildings or units the user can work with.

3. Open **Roles** to review roles. Select **Create** for a new role, then open **Permissions** to tick what the role may do.
4. To deactivate a person who has left, open the user and switch the account to inactive.

5.5 Building managers

1. Open **Building Managers**.
2. Add a manager and assign the buildings they look after.

5.6 Technicians

1. Open **Technicians** to see the team, speciality, shift, and status.
2. Select **New**. Enter name, email, password, employee ID, speciality, skills, experience, shift, working hours, and the buildings or towers they cover. Save.
3. Open a technician to view the profile, workload, and history.
4. Select **Assign** on a technician's page to give them work orders or complaints.

5.7 Security guards and posts

1. Open **Security Guards** and select **New**. Enter name, email, and password. Save.
2. Open **Security Deployment** to create posts such as Main Gate, Lobby Desk, or Basement Patrol, with their duties.
3. Assign a guard to a post with a shift name, start and end time, and working days.
4. Open **Security Monitoring** to follow incidents, patrol activity, and guard coverage.

5.8 Complaints

1. Open **Complaint Categories** to maintain categories such as Electrical, Plumbing, Lift, Cleaning, Parking, and Security. Add, rename, or remove as needed.
2. Open **Complaints & Incidents** to see all complaints with their status and priority. Use filters for status, priority, or category.
3. Select a complaint to read its details, comments, and history.
4. Choose a technician in the assignment field and save. The status becomes **Assigned**.
5. Add comments to inform the resident or technician. You can change the priority if needed.
6. When the work is finished, set the status to **Resolved**, then **Closed** after the resident is satisfied. A closed complaint can be reopened if the issue returns.
7. If the complaint needs formal repair work, create a work order from it (see 5.9).

5.9 Work orders

1. Open **Work Orders** and select **New**.
2. Enter a title and description, choose the priority, location or asset, due date, and technician.
3. Save. The technician sees the order in My Work Orders.
4. Open an order to follow progress, comments, and attachments. Use **Edit** to change details.
5. Close the order when the technician reports completion.

5.10 Preventive maintenance

1. Open **Preventive Maintenance** to see all maintenance plans. Use the **Calendar** and **Matrix** views for schedules.
2. Select **Create Plan** and complete the steps: Basic details, Location, Facilities and assets, Recurrence, and Safety checklist.
3. Publish the plan.
4. When a plan is due, select **Spawn WO** to generate a work order, then assign it to a technician. Work orders are not created automatically.

5.11 Assets

1. Open **Assets & Inventory**.
2. Use **Categories** to maintain categories such as HVAC, Water Systems, and Safety Equipment.
3. Select **Add Asset**. Enter the name, tag, category, location, serial number, purchase date and price, and warranty expiry.
4. Use the status filter to find active equipment or equipment in repair, and the warranty view to see expiring warranties.
5. The Inventory tab is an equipment register. It does not track spare-part stock quantities.

5.12 Facilities and bookings

1. Open **Facility Reservations** and select **Add Facility**.
2. Choose the building, then enter name, category, capacity, fee, deposit, and rules. Save.
3. Open a facility's **Settings** to adjust booking slots, durations, and approval rules.
4. Open **Schedule** to see the calendar of bookings.
5. Open **Approvals** to review pending requests, then approve, or reject with a reason.

5.13 SmartiPark (Parking)

1. Open **SmartiPark**. Review parking areas, slots, vehicles, allocations, permits, reservations,

and violations.

2. Create an area, add slots, then allocate a slot to a unit and vehicle.
3. Open **Gate** to record vehicle entry and exit sessions.
4. Record violations (such as overstay or wrong-bay parking) and track their status.

5.14 Visitors, alerts, documents, activity

- **Visitors** - see visitor registrations and approve or reject pending ones.
- **Alerts & Broadcasts** - create an announcement, choose its audience, and publish it. Residents see it under Announcements.
- **Documents** - upload and share files such as rules, notices, and agreements.
- **Activity** - review recent actions in the organization.
- **Departments** and **Settings** - maintain departments and organization settings (administrators).

6. Technician Guide

Sign in with a technician account, for example `tech.electrician@tamilapartments.com`. The left menu contains: Dashboard, My Work Orders, Complaints, Assigned Assets, Preventive Maintenance, Inventory Request, Attendance, Leaves, Reports, and Profile.

6.1 Start your day

1. Open **Dashboard** to see your open work orders, complaints, and due dates.
2. Open **Attendance** and mark your attendance for the day.

6.2 Handle a complaint assigned to you

1. Open **Complaints**. Only complaints assigned to you are shown.
2. Select a complaint to read the description, unit, priority, and comments.
3. Change the status to **In Progress** when you start the work.
4. Add comments to describe what you found or did, and attach photos if available.
5. If you need parts or more time, set the status to **On Hold** or **Waiting for Parts** and add a comment.
6. When finished, set the status to **Resolved** and add a closing note.

6.3 Complete a work order

1. Open **My Work Orders** and select an order.
2. Review the location, asset, priority, due date, and checklist.
3. Update the status as the work proceeds.
4. Tick off the checklist steps and record results.
5. Add comments and attach photos or documents as proof.
6. Mark the order completed.

6.4 Preventive maintenance and assets

- **Preventive Maintenance** - see scheduled inspections assigned to you and complete their checklists.
- **Assigned Assets** - view equipment you are responsible for, including location and warranty.

6.5 Other pages

- **Inventory Request** - request items you need for a job.
- **Leaves** - apply for leave and see its status.
- **Reports** - review your completed work summary.
- **Profile** - check your employee details, skills, and shift.

7. Security Guard Guide

Sign in with a guard account, for example `guard.gate@tamilapartments.com`. The left menu contains: Dashboard, My Posts, Visitor Check-In, Access Log, Incidents, and Patrol Routes.

7.1 Check your duty

1. Open **Dashboard** for today's visitors, open incidents, and your current post.
2. Open **My Posts** to see the post assigned to you, its duties, and your shift timings.

7.2 Check in a visitor

1. Open **Visitor Check-In**.
2. Find the visitor's pre-registration (registered by a resident) or add a new visitor with name, phone, ID number, and the unit being visited.
3. Confirm approval from the resident or manager if the visit is pending.
4. Select **Check In**. When the visitor leaves, select **Check Out**.

7.3 Access log

Open **Access Log** to see all entries and exits. Search by visitor name or date.

7.4 Report an incident

1. Open **Incidents** and select **Report Incident**.
2. Enter a title, a clear description, the date and time, and the severity (Minor, Major, or Critical).
3. Submit. Managers can update the status through Reported, Investigating, Resolved, and Closed.
4. Open an incident to see updates.

7.5 Patrols

1. Open **Patrol Routes** to see the routes and checkpoints.
2. Walk the route and record each checkpoint as you reach it, adding a note if something is wrong.

8. Resident (Owner and Tenant) Guide

Sign in with a resident account, for example `rajesh.kannan@example.com` (owner) or `pradeep.kumar@example.com` (tenant). The left menu contains: Dashboard, Complaints, Visitors, Announcements, Notifications, My Profile, and, when enabled for your organization, Facility Reservations and My Parking.

8.1 Raise a complaint

1. Open **Complaints** and select **New Complaint**.
2. Choose a **Category** (for example Electrical or Plumbing).
3. Enter a short **Title** and a clear **Description**.
4. Choose a **Priority**: Low, Medium, High, or Critical.
5. Attach photos if they help.
6. Select **Submit**. The complaint appears in your list with status **New**.

8.2 Track a complaint

1. Open **Complaints** and select your complaint.
2. Read the current status, the technician assigned, comments, and the history of changes.
3. Add a comment to give more information or ask for an update.
4. Once it is **Resolved**, confirm the work is done. If the issue is not fixed, ask for it to be reopened with a comment.
5. Give feedback with a rating and short note where the page offers it.

8.3 Register a visitor

1. Open **Visitors** and select **Add Visitor**.
2. Enter the visitor's name, phone, expected date and time, and purpose.
3. Submit. Security sees the registration at the gate and checks the visitor in.

8.4 Book a facility

1. Open **Facility Reservations**.
2. Select a facility such as the Fitness Centre, Swimming Pool, or Community Hall.
3. Choose an available date and time, the number of attendees, and the reason.
4. Submit the request.
5. Open **My Bookings** to see whether it is Pending, Confirmed, or Rejected. Some facilities

need staff approval.

8.5 Parking

Open **My Parking** to see your allocated slot, registered vehicles, and permit.

8.6 Announcements, notifications, and profile

- **Announcements** - read notices from management.
- **Notifications** - see updates about your complaints, bookings, and visitors.
- **My Profile** - review and update your contact details.

9. Complaint Lifecycle

Status	Meaning	Usually set by
New	Complaint submitted	Resident
Open	Seen and accepted by management	Administrator or Manager
Assigned	A technician has been given the job	Administrator or Manager
In Progress	Work has started	Technician
On Hold / Waiting for Parts	Work paused for a reason	Technician
Resolved	Work completed	Technician
Closed	Confirmed finished	Administrator or Manager
Reopened	Problem returned	Resident or Manager
Cancelled / Rejected	Complaint not pursued	Administrator or Manager

Typical flow: Resident submits → Administrator assigns a technician → Technician works and comments → Technician resolves → Resident or manager confirms → Closed.

10. Tips and Troubleshooting

- **Cannot sign in** - check the email and password (letters are case-sensitive). Use Forgot password, or ask your administrator to confirm that your account is active.
- **A menu is missing** - menus depend on your role and on the modules enabled for your organization. Ask your administrator.
- **A page looks empty** - confirm you are signed in as the right user, then refresh the page.
- **Access changed** - sign out and sign in again after an administrator changes your role.
- **Slow first load** - if the system has been idle, the first request may take a moment. Wait briefly and try again.
- **Security** - never share your password. Change the initial password, and sign out on shared

computers.
